The *Interagency Plan Implementation Committee* is a committee comprised of staff of multiple City agencies who jointly plan the implementation of Area Plans, largely through the spending of impact fees and other revenue sources.
Implementing Our Community Plans

IPIC is outlined in Chapter 36 of Administrative Code:

**Major tasks:**
- Prioritize projects and funding
- Coordinate with CAC(s)
- Develop & implement capital programs
- Inform the Capital Planning Committee process
- Annual Committee reports
The **Community Advisory Committees** are comprised of residents and workers of three Plan Areas (Eastern Neighborhoods, Market Octavia, and SoMa) who advise on the implementation of the respective Area Plans, focused on delivery of infrastructure and community benefits.

Implementation
IPIC Current Spending Categories

Transit

**Purpose:** to fund transit-related infrastructure to accommodate the increased need for bus, BRT, and LRT needed to maintain and improve the level of transit services.

**Use:** The fee will be used to enhance transit service through transit-related street infrastructure, and increasing transit capacity.

Complete Streets

**Purpose:** to fund streetscape and pedestrian infrastructure to accommodate the growth in street activity.

**Use:** The streetscape infrastructure fees will be used to enhance the pedestrian network in the areas surrounding new development – whether through sidewalk improvements, construction of complete streets, or pedestrian safety improvements.

Recreation and Open Space

**Purpose:** to help maintain adequate park capacity required to serve new service population resulting from new development.

**Use:** to be used to fund projects that directly increase park capacity in response to demand created by new development. Park and creational capacity can be increased either through the acquisition of new park land, or through capacity enhancement to existing parks and open space.
IPIC Current Spending Categories

Child Care

Purpose: to support the provision of childcare facility needs resulting from an increase in San Francisco’s residential and employment population.

Use: The childcare impact fee will be used to fund capital projects related to infants, toddler, preschool-age childcare. Funds will pay for the expansion of childcare slots for infants, toddler, and preschool children.

Community Facilities Fee

Purpose: to fund new demand for community facilities, such as cultural facilities, health clinics, services for people with disabilities, and job training centers.

Use: to design, engineer, and develop community services facilities, including cultural/arts facilities, social welfare facilities, and community health facilities

Administration

Use: Administration of this fund includes maintenance of the fund, time and materials associated with processing and approving fee payments and expenditures from the Fund (including necessary hearings), reporting or informational requests related to the Fund, and coordination between public agencies regarding determining and evaluation appropriate expenditures of the Fund.
Key Issues and Considerations Post COVID-19

- Timing of revenue for public improvements as development timelines slow down (fourth year in a row)
  - Behind in transferring previously appropriated funds to projects due to lack of revenue
  - Significantly reduced appropriations for FY24 and FY25 so revenue can catch up

- A few key developments are impacting revenue projections in SOMA and Transit Center

- To address the slowing down of impact fee revenue, implementing agencies have had to find new funding sources, rescope projects and/or delay implementation.
## Revenue Cumulative through FY 23

2. For FY2021-22, includes $11,620,000 appropriated to TJPA per Ordinance No. 177-21. Estimated for FY2022-23 and thereafter.
3. (DPW/MT/BART). Amounts are not of 0.2% CSPA audit fee.
4. Includes $880,000 allocated to the San Francisco County Transportation Authority for the Downtown Congestion Pricing Study Program. Estimated for FY2022-23 and thereafter.
5. Estimated future bond issuances and pay-go are based on current development status of Conditioned Projects and timing estimates provided by OCII and Planning. Subject to change.

CFD Bond Proceeds represent the maximum bonding capacity for each issuance, and Pay-Go Special Tax Revenues represent 10% debt service coverage required for Bonds less administrative expenses.
