Area with high pollution burden  
(not included in OEHHA  
CalEnviroScreen 4.0 due to  
missing data/low population)

**NOTE:**

This map was created to meet the requirements of CA Senate Bill 1000. The legislation requires that municipalities identify where "Disadvantaged Communities" are located, defined as areas facing elevated pollution burden coupled with a high incidence of low-income residents. This map is based on OEHHA's CalEnviroScreen 4.0 Map, modified to incorporate additional local data on pollution burden and socioeconomic disadvantage.
