Impact of Funding Scenarios on PCI and Backlog

CAPITAL BUDGET

General Fund Requests – San Francisco Public Works

- Well-maintained roads (PCI 75+)
- Cost: ~\$35K/block (preservation)
- Potential impacts if there is no General Fund allocation:
 - Significantly diminish the return on investment in the \$1.0B prior-years spending on street resurfacing
 - Layoffs
 - Increase in road condition-related injuries to bicyclists and pedestrians; increase in claims
 - Lower public satisfaction in government

Lashbrook v. City of San Jose

On September 2, 2020, the United States District Court for the Northern District of California finally approved a class action settlement on behalf of persons with mobility disabilities who live in or visit the City of San Jose. The approved consent decree requires the City to install and upgrade approximately 27,621 curb ramps over the next 18 years.

Curran v. City of Oakland

[Scroll to case documents](#) ▾

Date Filed: 05/15/2023

Status: [Active](#)

In May 2023, DRA filed a federal class action lawsuit against the City of Oakland on behalf of two people with mobility disabilities for denying them full and equal access to the City's pedestrian rights of way, a violation of the Americans with Disabilities Act, Section 504 of the Rehabilitation Act of 1973, and California law.

CAPITAL BUDGET

General Fund Requests – San Francisco Public Works

- Inaccessible sidewalks isolates communities
- Missing curb ramps create barriers for seniors, people with disabilities and families with strollers
- Missing or broken curb ramps increase San Francisco's legal risks
- Public perception around public safety and cleanliness influenced by road conditions
